

# Outside Play Space

Inside and outside spaces for parent and child to maximise fine and gross motor skills development, learn how to “play” in an appropriate and safe manner and experience the joys of being outdoors

CCCare@ Canberra College would like to acknowledge the ongoing assistance it receives from its numerous supporters across the ACT community.

## CCCaes @ Canberra College

CCCaes @ Canberra College is a program for pregnant and parenting students from the ACT and surrounding districts.

We provide flexible delivery of learning and content, towards the receipt of an ACT Year 12 Certificate and certified competency based training.

CCCaes @ Canberra College offers:

- a holistic health service provision in partnership with ACT Health;
- links with external agencies to provide advocacy and support;
- on-site adjunct childcare;
- easy access for CCCaes students to additional curriculum offered within the mainstream program;
- close proximity to Woden Plaza for work placement opportunities.
- A variety of vocational courses offered by external providers

At CCCaes we have:

- A Virtual Enterprise environment, which enables the delivery of Business Administration and associated competencies.

- A Hair & Beauty salon, fully equipped and functioning with hair washing points, cutting and styling chairs, and a nail centre. Students can be involved in competency based training combined with hands on experience. This space also enhances student personal grooming, presentation at interviews and how to look good for all occasions.
- A Focus Group room for courses such as Certificate III Early Childhood Education and Care, where students will be engaged in theoretical activities and then engage with our babies and children in our adjunct care environment gaining practical experience and associated competencies.
- A Hospitality suite which will enable the delivery of vocational competencies from a variety of packages. and hands on experience by catering for functions.
- “Home kitchens” to teach good old home cooking to our young mums and dads.
- A café staffed by students operating daily

CCCaes offers transportation to students and their children from their homes to school and back again each school day.

CCCaes uses Personalised Learning Plans to:

- develop the social and emotional intelligences needed to become connected to their chosen community
- improve student’s literacy, numeracy and IT skills
- work to develop an awareness of local and global issues
- provide a supportive environment which encourages young people to identify and manage their personal circumstances
- Working with young parents to develop the necessary skills and personal strengths they need to become marketable and employable in the future, thereby assisting our young people to become financially independent.
